

# Exclusive Book for First Responders and Victims of 9/11

*(Now Available to the Public)*

## *Limited Public Release on the Fifth Anniversary*

---

As a paramedic/firefighter who responded on 9/11, who was fortunate enough to survive that day, I felt compelled to share my gratitude and admiration, for so many, that gave so much. This book is a compilation of my own personal photo album and diary surrounding the event. My intention was to give some comfort to all those affected by the tragic events of 9/11. Many unknown acts of kindness and compassion occurred that day and the days to follow. The book was designed to portray an accurate recollection of the events, focusing on the inspiring stories of bravery and hope that may have otherwise been buried.

Originally the book was exclusively distributed among the first responders but their highly positive emotional response and requests to make it public, has lead to a limited trial release for the fifth anniversary of the attacks. *A portion of all book sales will be donated to various 9/11 charities.*

Attached are independent book reviews that provide some insight into the content and readers' reactions. Critics of the book have described the book as extremely powerful and compelling while respectfully treating the victims of 9/11. The one comment that convinced me to make it public was by a first responder's wife that stated, "she would someday give it to her children to read, in order for them to better know their father."

I simply ask that you review my book for yourself and thank you in advance for your valuable time and attention.

*Gone But Not Forgotten: Tribute to Voices Not Heard*

By Fabrizio Bivona

Hard Cover; 9 1/2 inches by 12 1/4 inches

112 pages, full-color photographs

## Gone But Not Forgotten Book Reviews

*"You captured a moment in history and froze it in time. You gave me a new appreciation for the people and the events, as you made me feel like I was right there. If someday I'm asked about 9/11, I'll simply hand them "Gone But not Forgotten" and they will live it through your eyes but with their hearts.*

—Steven, East Stroudsburg, PA

*You dissected and examined the tragic events in such a way, that I felt both comfort and inspiration. This was the hardest book I've ever read. But I've never loved a book more. You have taken literature to the next level.*

—Bruce, Flemington, NJ

*"Everyone should read your story before they knock this country—it's a wake up call. This book broke the boundaries for honor and dignity. It makes me prouder than ever to be an American"*

—Malcolm, Staten Island, NY

*"You treated the event with respect and dignity, while keeping the triumphant spirit of the towers alive forever. This is a commemorative and historic keepsake, which I will treasure forever."*

—Pamela, Morris Plains, NJ

*"Wonderful ... Beautiful written ... Thoughtful ... Honest and Raw." I Loved it! I actually felt like I was there and even cried a few times. It was nice because 3 years later things begin to fade slightly, so it brought it right back. Almost a visceral response as some of the emotions that I was dealing with at that time, came right back.*

—Danielle, Baltimore, MD

*Oh my God! I started to read it this morning at work and I am up to page 10 and had to stop. It's a story that totally takes you in and totally transports you back to that horrible day. Very well written. I wish every American could read about this again - and just remember what these people went through. It is engrossing, compelling and Heart-rendering*

—Joan, Hopatcong, NJ
